Summary

An enthusiastic high school graduate with a strong interest in handling software development work at a dynamic organization. I am a versatile and analytic individual with a practical hands-on approach, aimed at achieving results to benefit the company. To pursue a challenging career and be a part of progressive organization that gives a scope to enhance my knowledge and utilizing my skills towards the growth of the organization.

Experience

Product Development Intern - Appointy IT PVT LTD

May'19 - July'19

- Develop and evaluate the next generation services with GO language to speed up the process
- Created a new level of tool named Khata which is used for clearing PII(personally identifiable information) tagged fields from the database as well as from logs by auto generating its code.

Developed Android application- Reinlo - Contributed for Startup

Nov'18 - Jan'19

- This app for created to solve the current problems faced by the startup and in order to automate the process which was manually done and a lot of time and efforts was wasted in managing those data.We used firebase for phone authentication and as a realtime database.
- We have also integrated our app with Textlocal's API to send alert sms. This service could also be used by the admin in order to send sms using our app.

Real Estate Database Management System - SGSITS indore

July'18 - Oct'18

- Developed a web application to provide ease in communication and interaction. We provided broker oriented software that simplifies the task of managing the clients and the properties associated with their interest.
- We implemented it using ASP.NET framework and C## as backend language. We have used MYSQL database to store and manipulate data.

Competitive Coding - Problem Solving

Aug'18 - Till date

- A Regular Participant at various online coding platforms like Codechef(4 star), Hackerrank and Hackerearth.
- (Usernames - Codechef: aman_bhawsar, Hackerrank and Hackerearth: amanbhawsar99)
